Evento Free

Descrizione

Seed Forum is a global meeting point for access to private equity funding in more than 40 countries worldwide. More than 10,000 investors are annually attending Seed Forums and more than 5,000 companies are annually trained in Seed Forums pitch trainings. The scope is to provide a high level of investor readiness to start-ups and the highest level of contact point between investors and companies. Seed Forum offers a free training day to startups on 7th April 2016, in which companies will learn negotiation techniques, the art of networking and will attend an investor readiness workshop.

Italian startups will have the opportunity of matchmaking with Norwegian startups. Why Norwegian? Because the Seed Forum is one of the official events in calendar on the occasion of the State Visit in Milan by Their Majesties The King and Queen of Norway. On 8th April 2016, the selected Italian start-ups will have the occasion to attend a session of conference, with the participation of AIFI (Italian Association of Private Equity, Venture Capital and Private Debt) and Seed Forum Global organization. Every startup has also the opportunity to hold a pitch followed by Q&A. At the end of the conference, a Royal Lunch at the presence of Their Majesties and VIP business network will be offered to the participants at the Principe di Savoia hotel, in Milan.

The participation is free and the best Italian start-up will win the opportunity to attend the next Seed Forum in Oslo on 14th of April.
